(54) ELECTROMAGNETIC FLOWMETER

(57) Abstract:

PROBLEM TO BE SOLVED: To provide an electromagnetic flowmeter which is friendly with a global environment and low cost.

SOLUTION: There are provided a cylindrical engaging plate provided at a measuring tube, and a lining body which is provided on the inner-diameter surface of the measuring tube and engaged with the engaging plate. Here, a plurality of notches which are long along the tube axis direction of the engaging plate are provided.
